# Chromebook Setup Guide

Do not sign in before enrolling the device. Doing so will require the device to be wiped.

1. Power on and connect to the guest network (**Password: "ehtguest"**)

2. Accept chrome EULA. Do not sign in yet!
3. At the sign in screen press **CTRL+ALT+E.** From the enrollment screen enter your credentials.

At this point the device is ready to be used, feel free to sign into it or shut it down and deploy it.
